

New Vocations Racehorse Adoption Program

Specializing in finding homes for Retired
Racehorses for 21 years.

Mission

Rehab, Retrain, and Rehome
Retired Racehorses

Our Facilities

Ohio, Kentucky, Pennsylvania, and Michigan

How the Program Works

- We work directly with owners and trainers
- We work with HBPA, THA groups, and racetracks.
- Take in horses from over 30 different racetracks
- Fill out donor form
- Gather all information on the horse
- Horses must have be riding sound or have a good prognosis of becoming riding sound
- Timeframe is given to when the horse can arrive
- Donor organizes transportation

Once in the Program

The transition begins.....

Evaluation

- Physical and mental evaluation
- Transition to turn out
- Socialization
- Basic care (nutrition, farrier, vaccinations)
- Ground work
- Under saddle work

This process can take anywhere from 2 weeks to 2 months if the horse is sound or 2-8 months if the horse needs rehabilitation time.

Understanding the Equestrian Market

- Large market for horses that can go into a competitive discipline (dressage, hunters/jumpers, and eventing).
- Smaller market for horses with limitations, pleasure homes are typically less experienced homes and horses must have superb dispositions.
- The average equestrians shy away from common track injuries.
- We are competing with a lot of other horses (non-Thoroughbreds) also looking for homes.

Marketing

Adoption Process

- Application Screening
- Adoption Contract
- Follow Up
