Featured Listing: Flyoverfast

Asking: \$1700.00 - negotiable to perfect person

We received the following write up from this darling boy's owner:

"8 year-old - dark bay - very sweet gelding
This handsome guy is awaiting his forever home. He has started 31 times over 4 years, without a big payday, which earned him his retirement, just too sweet for the game. He is sound and ready. The sky is the limit, a prospect for trail horse (like his brother & former CANTER Trainer Listing cutie 'Little Man') eventer, dressage or hunter/jumper! He has a sweet disposition and can't wait to give you his heart."

Pedigree:
Located in Gilroy, CA.

Talk about pure class! This regal 2005 (Foaled March 9, 2005) mare stands approx 17.1hh. Something incredibly special about this gal! Stood for photos with poise, confidence, & quiet composure. She's known as "Big & Beautiful" to her racing dad - and she certainly lives up to her nickname! An absolute long time barn favorite - this gal is extremely special to her racing family. A good home is a MUST. She is retiring from the track due to a Right Outer Suspensory injury - scans ARE available.

Welcome to CANTER

CANTER stands for The Communication Alliance to Network Thoroughbred Ex-Racehorses. CANTER started as a solution to help racehorses find new [careers](#) by connecting buyers and sellers through posting racehorses for sale on the Internet. The program quickly became a national web-based phenomenon. Since the first CANTER Michigan program started in 1997, it and has grown to include affiliates in Arizona, California, Colorado, Illinois, Kentucky, Michigan, Mid Atlantic, New England, Ohio, Pennsylvania, Texas, and Washington. All the CANTER [programs](#) are all-volunteer organizations with 501c3 non profit status.

The affiliates in Arizona, California, Kentucky, Michigan, Mid Atlantic, New England, Ohio, Colorado, Illinois, Minnesota, Texas, and Washington have also expanded their CANTER programs to include owner relinquished horse adoption programs, where CANTER assumes ownership of the horse and all associated expenses. Many of these CANTER Phase II programs have affiliations with veterinary colleges such as Michigan State University and Ohio State University, where horses receive necessary surgical procedures to return to soundness.
